

Emergency Preparedness

Backup power solutions to rent or own

KOHLER | **on**[™]

PLANNING AHEAD WITH KOHLER IS YOUR BEST PLAN

In every business situation, planning makes the difference between success and failure.

Be certain you've planned for success with backup power solutions from **Kohler Power**

Systems and **Kohler Rental**. From single to multiple locations, permanent power,

emergency rentals and plans that combine the two, Kohler is ready. We'll help you assess

your needs, set priorities and specify equipment. And by the time we're done, you can

have a totally integrated system in place — one that saves time, money, productivity and

even lives. With Kohler, the power will be On because the people behind the power are

On. Always.

KOHLER HELPS YOU PLAN BY DETERMINING:

- Critical-load requirements
- Power priorities
- Equipment needs
- Emergency delivery and setup logistics
- Organizational responsibility chain
- Security
- Technical support needs
- Additional customized requirements

WE'RE PREPARED SO YOU ARE

For every aspect of planning your critical-load requirements, Kohler has developed a solution, including:

- Mobile and stationary generator sets up to 2800 kW, engineered for multiple industries: manufacturing, hospitality, healthcare, government, data centers, telecom, petrochemical and more.
- Trained national distributor/dealer network provides expert planning services and world-class technical support.
- UL- and EPA-compliant products.
- Wireless monitoring of critical functions.

BUYING FROM KOHLER

When reliable backup is an ongoing concern, Kohler is ready with permanent whole-facility and critical-load power solutions. Kohler technical experts determine your total power needs, and then develop the appropriate plan using KOHLER® EPA-compliant diesel, gas and/or LP generators (stationary up to 2800 kW, towable up to 2000 kW), and a full complement of automatic transfer switches, paralleling switchgear and custom packaging. The moment the grid is compromised, clean and reliable power kicks in, ensuring your ability to continue operating. Another flexible option is to develop a combined permanent/rental plan.

Kohler has a GSA (MAS) contract to sell industrial generators to all U.S. Federal Agencies and has been a trusted supplier of power solutions to multiple markets for nearly a century.

WITH KOHLER, THERE IS NO DOWNTIME

Specify a KOHLER[®] power solution for your business and you'll have access to one of the most responsive support networks in the industry. Our nationwide network of distributors is ready around the clock to expedite parts, service, technical support and more, ensuring you're never down — even when the power is.

RENTING FROM KOHLER

In situations where backup power is desired but large equipment investments aren't, Kohler Rental is an affordable, effective power assurance plan. No matter your industry, Kohler power experts will help you prioritize your load needs, work out delivery logistics and prepare for a smooth transition from grid to backup. Plan ahead with Kohler Rental and if power goes down or threatens to go down, you can be sure you'll be up and running with minimal lost time.

Even before the power is out, Kohler Rental is ready to roll. From a single fully self-contained tow-behind or trailer-mounted diesel generator — up to 2000 kW — to an intricate paralleling or redundant power package, you're assured the right solution for the job, along with dedicated professionals who'll keep things running smoothly.

EVERY BUSINESS FACES A DIFFERENT CHALLENGE

In emergency preparedness planning, Kohler power solutions are trusted by facilities managers, specifying engineers, disaster recovery specialists and others who understand the importance of uninterrupted power. Kohler is ready to help you with all of your emergency needs, including mobile air conditioning and temperature control, mobile sanitary restrooms and more.

Contact your local KOHLER distributor for your personal login to access our generator sizing and specification tool at KohlerQuickPack.com. To locate your nearest KOHLER distributor, call 920-459-1775 or visit KohlerPower.com and click on the “sales and service locator” at the top of the screen.

Discover more at **KohlerPower.com** and **KohlerRental.com**. Or call **800.544.2444** in the U.S. and Canada.
